

EVOLUTION AND INHERITANCE

Plant Evolution

Put a number in the circle of these plants in order of evolution. Put number 1 for the earliest plant and number 4 for the most recently evolved plant

Animal Evolution

How has this moth evolved to its environment?

EVOLUTION AND INHERITANCE

Plant Evolution

Put a number in the circle of these plants in order of evolution. Put number 1 for the earliest plant and number 4 for the most recently evolved plant

Animal Evolution

How has this moth evolved to its environment?

The Peppered Moth has adapted by evolving to be a different colour after polluted air recoloured

its habitat making it visible to predators
